PROJECT:

CAMPUS MARKET PLACE (DE Project)

The **Campus Marketplace** project successfully demonstrates how a digital platform can facilitate buying, selling, and exchanging items within a college environment. By focusing on the unique needs of students, the project creates a **safe, convenient, and user-friendly ecosystem** where resources can be efficiently utilized and shared.

VISUAL STUDY GROUP (DE PROJECT)

The **Collaborative Whiteboard** is a powerful and interactive feature that significantly enhances real-time communication and teamwork in a **Virtual Study Group Platform**. It allows students to visually express ideas, solve problems together, and brainstorm concepts all in one shared space.
